Chapter 1

Features

Banner's TL70 Pro Ethernet Modular Tower Light is a 70 mm, modular LED indicator with bright and uniform light. The modularity gives the user flexibility to customize tower lights as needed and change positions in the field. The TL70 is also available preassembled for easy installation.

- Modbus TCP/IP, EtherNetIP, and PROFINET control allows access to full color, flashing, and dimming settings, as well as advanced animations and audible tones
- · Up to five indicator segments and one audible segment in one device
- · Rugged, water-resistant IP65 housing with UV-stabilized material
- Bright, uniform indicator segments appear gray when off to eliminate false indications from ambient light
- · Simple and fast connection with M12 quick-disconnect connector

Models

Segment Models

Model	Description	
SG-TL70P-L	RGB light segment	
SG-TL70P-A	Audible segment	

Base Models

Model	Description		
B-TL70POE-QPD	Power over Ethernet (PoE) base module with 475 mm (18.7 in) cable with a 4-pin D-Code M12 female quick-disconnect connector		
B-TL70PE-Q2PE	Ethernet base module with dual cables: One 475 mm (18.7 in) cable with a 4-pin D-Code M12 female quick-disconnect connector One 475 mm (18.7 in) cable with a 4-pin A-Code M12 male quick-disconnect connector		

Pre-Assembled Models

Model	Description
TL70POE3QPD	Power over Ethernet (PoE) with three RGB segments
TL70POE3AQPD	Power over Ethernet (PoE) with three RGB segments and an audible segment
L70PE3Q2PE	Ethernet with three RGB segments
TL70PE3AQ2PE	Ethernet with three RGB segments and an audible segment

Chapter 2 <u>Installation Instructions</u>

Assembling the Modules

To assemble the modules:

- 1. Align the notches on each module and press together.
- 2. Rotate the top module clockwise to lock into place (notches shown in the locked position).

NOTE: DIP switches should remain in the default off position.

Chapter 3 Wiring

Wiring for Power over Ethernet (PoE) Models

Pinout	Pin	Connection (802.3af mode A, mixed DC and data)
475 mm (18.7 in) cable with 4-pin D-Code M12 Female Quick-Disconnect Connector	1	TX+ / DC-
	2	RX+ / DC+
	3	TX- / DC-
	4	RX- / DC+

Wiring for Ethernet Models

Pinout	Pin	Connection
475 mm (18.7 in) cable with 4-pin D-Code M12 Female Quick-Disconnect	1	TX+
Connector 4	2	RX+
3001	3	TX-
	4	RX-
475 mm (18.7 in) cable with 4-pin A-Code M12 Male Quick-Disconnect Connector	1	Brown wire: 18 V DC to 30 V DC
	2	White wire: Unused
2	3	Blue wire: DC common
3	4	Black wire: Unused

Chapter 4

Configuration Instructions

Modbus TCP and EtherNet/IP Configuration

By default, the TL70 Pro Ethernet Tower Light is configured to communicate via Modbus TCP or EtherNet/IP without the need to connect the device to a computer for setup.

Plug the tower light into a switch, and use the default IP address of 192.168.0.1 and subnet mask of 255.255.255.0 to connect via Modbus TCP or EtherNet/IP.

Connecting to the Device with DXM Configuration Software

Connect the TL70 Ethernet Tower Light to the computer directly or through a switch.

- 1. Open the DXM Configuration Software and select DXMR90x from the Select DXM Model drop-down menu.
- 2. Click Scan Network for DXMs to find the correct IP Address, or enter the IP Address directly if it is known.
- 3. Click Connect.

Connecting a Device to the DXM Configuration Software

For connection troubleshooting and additional instruction, refer to the DXM Configuration Software Manual, PN 209933.

Retrieving the Configuration from the Device

Import the tower light configuration before making any changes to the program.

Select **DXM > Get Configuration from DXM** in the toolbar menu to save the configuration to the computer and import it into the software.

Get Configuration

Changing the IP Address

To change the IP address:

- Select Settings.
- 2. Select Ethernet.
- 3. Enter the desired IP address and subnet.
- 4. Choose either Static or DHCP from the drop-down menu.

Save and Upload the Configuration File

After making any changes to the configuration, you must save the configuration files to your computer, then upload it to the device.

Changes to the XML file are not automatically saved. Save your configuration file before exiting the tool and before sending the XML file to the device to avoid losing data. If you select **DXM** > **Send XML Configuration to DXM** before saving the configuration file, the software will prompt you to choose between saving the file or continuing without saving the file.

- 1. Save the XML configuration file to your hard drive by going to the File > Save As menu.
- 2. Go to the **DXM > Send XML Configuration to DXM** menu.

 After the file transfer is complete, the device reboots and begins running the new configuration.

PROFINET Configuration

After connecting to the TL70 and uploading the configuration via the DXM configuration software:

- 1. Select Settings.
- 2. Select Ethernet.
- 3. Check Enable Profinet.

When complete, select **File > Save**, and then select DXM and Send Configuration to DXM to send the PROFINET-enabled configuration to the tower light. The tower light can now be connected over PROFINET.

Tower Light Segment Modes

Basic Segment Mode

Use a single run time register per LED segment to set it to Off, On, Flash, or Animation mode.

Use a single run time register for an audible segment to set it to Off or On.

Use additional configuration registers to change color, intensity, flash speed, and select animation type on LED segments and change volume and tone on audible segment.

Advanced Segment Mode

Use multiple run time registers per LED segment to control color, intensity, flash, and other animation types.

Use multiple run time registers for an audible segment to control sync, volume, and tone settings.

Use additional configuration registers to create custom intensity and flash speeds.

LED Segment Control

Animation	Description
Off	Segment is off
Steady	Color 1 is solid on at defined intensity
Flash	Color 1 flashes at defined speed, color intensity, and pattern
Two Color Flash	Color 1 and Color 2 flash alternately at defined speed, color intensities, and pattern
50/50	Color 1 is displayed on 50% of the segment and Color 2 is displayed on the other 50% of the segment at the defined color intensities
50/50 Rotate	Color 1 is displayed on 50% of the segment and Color 2 is displayed on the other 50% of the segment while rotating at the defined speed and color intensities
Chase	Color 1 is displayed as a single spot against the background of Color 2 while rotating at the defined speed, color intensities, and rotational direction
Intensity Sweep	Color 1 repeatedly increases and decreases intensity between 0% to 100% at defined speed and color intensity
Demo	Demo sequence cycles through several sets of colors and configurations to highlight example applications

Audible Segment Control

Setting	Description
Audible State	Sets the segment to off, on, or synced to flash pattern of last LED segment
Audible Volume	Defines the volume of the audible tone

Setting	Description
Audible Tone	Defines the audible tone frequency

FCC Part 15 Class A for Unintentional Radiators	33

Dimensions	34

Chapter 5

Specifications

Supply Voltage

Power over Ethernet models: 42.5 V DC to 57 V DC PoE (Class 0 - 802.3af, 802.3at Type 1) Ethernet models: 18 V DC to 30 V DC

Supply Current

	Typical Current (mA) per Device						Max
Device	18 V DC	24 V DC	30 V DC	42.5 V DC	50 V DC	57 V DC	Current (mA)
PoE base	-	-	-	40	35	30	50
Ethernet base	60	45	40	-	-	-	75
Light and Audible segment	110	85	75	45	40	35	125

Environmental Rating

IP65

Supply Protection Circuitry

Protected against reverse polarity and transient voltages

Initial Startup Time

30 seconds

Construction

Bases, segments, and covers: polycarbonate

Connections

See "Wiring" on page 5

Operating Temperature

-40 °C to +50 °C (-40 °F to +122 °F)

95% at +50 °C maximum relative humidity (non-condensing)

Audible Alarm

Tone 0: 1.7 kHz \pm 250 Hz oscillation frequency; maximum intensity (typical) 81 dB at 1 m (3.3 ft)

Tone 1: 2.2 kHz \pm 250 Hz oscillation frequency; maximum intensity (typical) 100 dB at 1 m (3.3 ft)

Tone 2: 2.7 kHz \pm 250 Hz oscillation frequency; maximum intensity (typical) 104 dB at 1 m (3.3 ft)

Vibration and Mechanical Shock

Meets IEC 60068-2-6 requirements (Vibration: 10 Hz to 55 Hz, 0.5 mm amplitude, 5 minutes sweep, 30 minutes dwell) Meets IEC 60068-2-27 requirements (Shock: 15G 11 ms duration, half sine wave)

Spring Green	509	0.157	0.553	12.7

FCC Part 15 Class A for Unintentional Radiators

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

(Part 15.21) Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Industry Canada ICES-003(A)

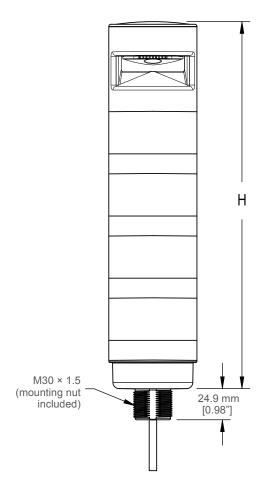

This device complies with CAN ICES-3 (A)/NMB-3(A). Operation is subject to the following two conditions: 1) This device may not cause harmful interference; and 2) This device must accept any interference received, including interference that may cause undesired operation.

Cet appareil est conforme à la norme NMB-3(A). Le fonctionnement est soumis aux deux conditions suivantes : (1) ce dispositif ne peut pas occasionner d'interférences, et (2) il doit tolérer toute interférence, y compris celles susceptibles de provoquer un fonctionnement non souhaité du dispositif.

-

⁽¹⁾ Refer to CIE 1931 chromaticity diagram or color chart to show equivalent color with indicated color coordinates. Actual coordinates may differ by 10%.

Dimensions

Model	Height (H)
1 light module	87.6 mm (3.45 in)
1 light module, 1 audible module	144.3 mm (5.68 in)
2 light modules	137.3 mm (5.41 in)
2 light modules, 1 audible module	194 mm (7.64 in)
3 light modules	187 mm (7.36 in)
3 light modules, 1 audible module	243.7 mm (9.59 in)
4 light modules	236.7 mm (9.32 in)
4 light modules, 1 audible module	293.4 mm (11.55 in)
5 light modules	286.4 mm (11.28 in)
5 light modules, 1 audible module	343.1 mm (13.51 in)

Mounting Brackets

All measurements are listed in millimeters, unless noted otherwise. The measurements provided are subject to change.

SMB30A

- · Right-angle bracket with curved slot for versatile orientation
- Clearance for M6 (1/4 in) hardware
- Mounting hole for 30 mm sensor
- 12-gauge stainless steel

Hole center spacing: A to B=40 Hole size: $A=\emptyset$ 6.3, $B=27.1\times6.3$, $C=\emptyset$ 30.5

SMB30MM

- · 12-gauge stainless steel bracket with curved mounting slots for versatile orientation
- Clearance for M6 (1/4 in) hardware
- Mounting hole for 30 mm sensor

Hole center spacing: A = 51, A to B = 25.4Hole size: $A = 42.6 \times 7$, $B = \emptyset 6.4$, $C = \emptyset 30.1$

SMBAMS30P

- · Flat SMBAMS series bracket
- 30 mm hole for mounting sensors
- Articulation slots for 90°+ rotation
- 12-gauge 300 series stainless steel

Hole center spacing: A=26.0, A to B=13.0 **Hole size:** A=26.8 × 7.0, B=Ø 6.5, C=Ø 31.0

SSA-MBK-EEC1

- Single 30 mm hole
- 8 gauge steel, black finish (powder coat)
- Front surface for customer-applied labels

Hole size: $A = \emptyset 7$, $B = \emptyset 30$

LMBE12RA35

- · Direct mounting of stand-off pipe, with common bracket type
- · Zinc-plated steel
- 1/2-14 NPSM nut
- Mounting distance from the wall to the center of the 1/2-14 NPSM nut is 35 mm

Hole center spacing: 20.0

LMBE12RA45

- · Direct mounting of stand-off pipe, with common bracket type
- · Zinc-plated steel
- 1/2-14 NPSM nut
- Mounting distance from the wall to the center of the 1/2-14 NPSM nut is 45 mm

Hole center spacing: 35.0

Elevated Mount System

Model			Features	Components	
SA-M30 - Black Polycarbonate			Streamlined black PC or Gray PC thread cover Covers M30 thread on the light base Mounting hardware included		
Polished 304 Stainless Steel	Black Anodized Aluminum	Clear Anodized Aluminum		طله	
SOP-E12-150SS 150 mm (6 in) long	SOP-E12-150A 150 mm (6 in) long	SOP-E12-150AC 150 mm (6 in) long	 Elevated-use stand-off pipe (½ in. NPSM/DN15) Polished 304 stainless steel, black anodized aluminum, or clear anodized aluminum surface 		
SOP-E12-300SS 300 mm (12 in) long	SOP-E12-300A 300 mm (12 in) long	SOP-E12-300AC 300 mm (12 in) long	½ in. NPT thread at both endsCompatible with most industrial environments		
SOP-E12-900SS 900 mm (36 in) long	SOP-E12-900A 900 mm (36 in) long	SOP-E12-900AC 900 mm (36 in) long		T	
SA-E12M30 - Black Acetal			 Streamlined black acetal or white UHMW mounting base adapter/cover Connects between ½ in. NPSM/DN15 pipe and 30 mm (1-3/16 in) drilled hole Mounting hardware included 		

Pipe Mounting Flange				
Model	Description	Construction		
SA-F12	 Elevated-use stand-off pipes (½ in, NPSM/DN15) M5 mounting hardware and nitrile gasket included 	Die-cast zinc base with black paint	1/2-14 NPSM	
SA-F12-3	 Elevated-use stand-off pipes (½ in, NPSM/DN15) M4 mounting hardware and nitrile blend gasket included 	Black Polycarbonate	1/2-14 NPSM 2 x 120 040 18.77 1	

Foldable Mounting Brackets					
Model	Features	Construction			
SA-FFB12	 For use with 1/2 inch stand-off pipes Stainless steel hardware 	Black polycarbonate	111 112-14 NPSM 110 070 4 x Ø5		

LMB Sealed Right Angle Bracket

Model	Description	Construction	
LMB30RA	Direct-Mount Models: Bracket kit with base, 30 mm adapter, set screw, fasteners, O-rings, and gaskets.	Black polycarbonate	
LMBE12RA	Pipe-Mount Models: Bracket kit with base, ½-14 pipe adapter, set screw, fasteners, Orings, and gaskets. For use with stand-off pipe (listed and sold separately).	Black polycarbonate	

Chapter 7

Banner Engineering Corp Limited Warranty

Banner Engineering Corp. warrants its products to be free from defects in material and workmanship for one year following the date of shipment. Banner Engineering Corp. will repair or replace, free of charge, any product of its manufacture which, at the time it is returned to the factory, is found to have been defective during the warranty period. This warranty does not cover damage or liability for misuse, abuse, or the improper application or installation of the Banner product.

THIS LIMITED WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES WHETHER EXPRESS OR IMPLIED (INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE), AND WHETHER ARISING UNDER COURSE OF PERFORMANCE, COURSE OF DEALING OR TRADE USAGE.

This Warranty is exclusive and limited to repair or, at the discretion of Banner Engineering Corp., replacement. IN NO EVENT SHALL BANNER ENGINEERING CORP. BE LIABLE TO BUYER OR ANY OTHER PERSON OR ENTITY FOR ANY EXTRA COSTS, EXPENSES, LOSSES, LOSS OF PROFITS, OR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES RESULTING FROM ANY PRODUCT DEFECT OR FROM THE USE OR INABILITY TO USE THE PRODUCT, WHETHER ARISING IN CONTRACT OR WARRANTY, STATUTE, TORT, STRICT LIABILITY, NEGLIGENCE, OR OTHERWISE.

Banner Engineering Corp. reserves the right to change, modify or improve the design of the product without assuming any obligations or liabilities relating to any product previously manufactured by Banner Engineering Corp. Any misuse, abuse, or improper application or installation of this product or use of the product for personal protection applications when the product is identified as not intended for such purposes will void the product warranty. Any modifications to this product without prior express approval by Banner Engineering Corp will void the product warranties. All specifications published in this document are subject to change; Banner reserves the right to modify product specifications or update documentation at any time. Specifications and product information in English supersede that which is provided in any other language. For the most recent version of any documentation, refer to: www.bannerengineering.com.
