Datasheet

Part No:
CGGBP.35.2.A.08

Description:

35mm*35mm*2mm GPS/GLONASS/Galileo/BeiDou/QZSS
Ceramic Patch Antenna

Features:

- Stable gain across most major GNSS applications
- Excellent radiation pattern coverage
- Low profile
- Dielectric Ceramic
- Pin (Through hole) Mount
- RoHS & Reach Compliant

1. Introduction

This CGGBP.35 35mm*35mm embedded ceramic GPS/GLONASS/Galileo/ BeiDou patch antenna has a wide band of operation, leading to excellent gain and radiation pattern stability on all three GNSS system bands. The CGGBP.35.2 is ideal for devices where height may be at a premium, at just 2mm this low profile patch antenna can be placed in areas where thicker antennas may not fit.

Typical Applications Include:

- Wearables
- Navigation
- Transportation
- RTK

Compared to using a smaller antenna, this will translate into the GNSS system having much higher location accuracy, improved reliability of lock in urban areas, better signal reception, with more satellites acquired and a quicker time to first fix.

The patch is mounted via pin and double-sided adhesive. This antenna has been manufactured in an IATF16969 approved facility.

While the antenna will operate well in most device environments (Note cannot be covered with metal enclosure), tuning and further optimization of this antenna to different ground-planes and enclosures can be done if required, also including a pin length change. These changes would be subject to possible NRE and a minimum order quantity. For further information contact your regional Taoglas customer support team

6. Antenna Integration Guide

6.1 Schematic Symbol and Pin Definition

The circuit symbol for the antenna is shown below. The antenna has 1 pin as indicated below.

6.2 Antenna Integration

The antenna should be placed at the center of the ground plane with a length and width of 70mm. Maintaining a square symmetric ground plane shape and symmetric environment around the antenna is critical to maintaining the excellent axial ratio and phase center performance shown in this datasheet.
