Datasheet

FXP14 Flexible PCB Cellular Antenna

Part No:
FXP14.07.0100A

Description

5G/4G Cellular Flexible PCB with 100mm 1.13 & IPEX MHFI Connector

Features:

Flexible PCB Antenna

Dimensions: 70x20x0.2mm

Connector: I-PEX MHF® I (U.FL Compatible)

Cable: 100mm of Ø1.13

Peel and Stick Mounting

3M 467 Adhesive

CE Certified

RoHS & REACH Compliant

1. Introduction

The Taoglas FXP14 Flexible Wideband Cellular Antenna covers all world-wide 5G/4G bands. The antenna has been designed in a flexible material with a rectangular form-factor and cable connection for an easy installation. The antenna works on different plastic materials and thickness. We have selected a piece of ABS with 2 mm of thickness as a baseline for testing.

Typical Applications Include:

- Security
- Remote Monitoring
- Connected Health

The antenna has been designed using a super thin flexible polymer substrate with a rectangular form-factor and cable connection for ease of installation. The antenna radiates well on different plastic materials and thickness. We have selected ABS plastic mounting with 2 mm of thickness as a baseline for testing. Best in class efficiency on lower and upper bands (above 40%) make it an ideal antenna for devices where space for onboard SMD cellular antennas is not available.

The antenna is mounted via automotive quality 3M 467 adhesive and has excellent reliability. The FXP14 has its own ground-plane, therefore it does not need to connect to the ground-plane of the main-board of the device for improved radiation efficiency.

For more information or installation instructions, please contact your regional Taoglas customer support team.

2. Specification

Electrical								
Band	**Frequency (MHz)**	**Efficiency (%)**	**Average Gain (dB)**	**Peak Gain (dBi)**	**Impedance**	**Polarization**	**Radiation Pattern**	**Input power**

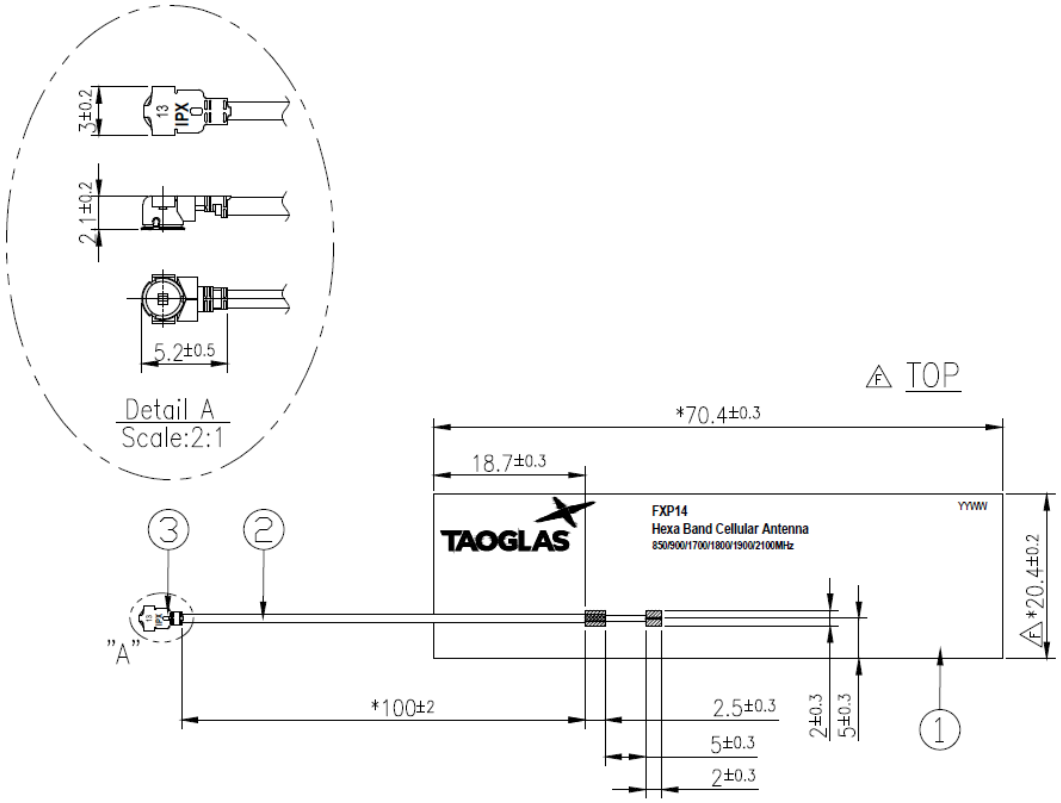
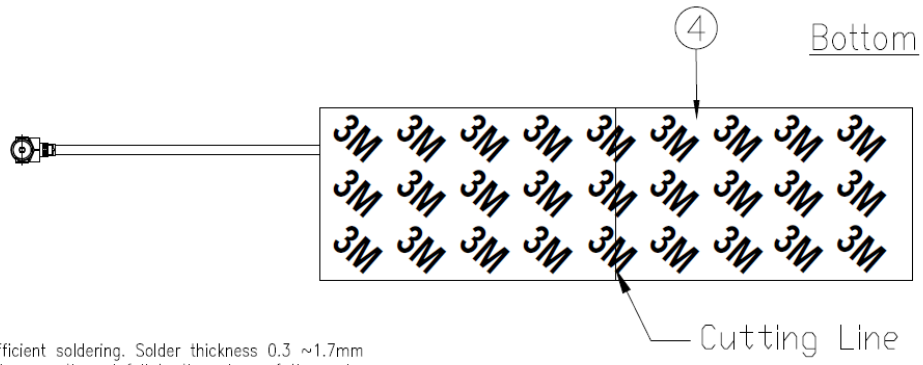
5. Mechanical Drawing





NOTES:
1.No dregs or insufficient soldering. Solder thickness 0.3 ~1.7mm
2.The solder must be smooth and full to the edges of the pad. The solder must not extend outside of the pad area.
3.The connector position has special orientation to the PCB as per drawing.
4.All material must be RoHS compliant.
5.Open/short QC, VSWR required.
6.Soldered area.
7."*" Critical Dimensions.

	Name	P/N	Material	Finish	QTY
1	FXP14 FPCB	100113A000033A	Polymer 0.24t	Black	1
