1. Introduction

The MA104.C.W GPS/Galileo & Cellular 2in1 Combination Hercules Antenna is a combination high performance GPS/GALILEO and penta-band cellular antenna solution for reliable asset tracking and remote monitoring. Durable UV and robust PC housing is IP65 rated, resistant to vandalism and direct attack. At only 29 mm height it complies with the latest EU height restrictions directives for roof-mounted objects, with a diameter of 49 mm.
It is designed to not catch on tree-branches.

The Hercules can be mounted on metal or non-metal structures as it has a metal ground-plane base integrated inside. The MA104 is also available in Black.
