## 750V-4.3mΩ SiC Normally-on JFET

Rev. B, June 2024

### Description

Qorvo's UJ4N075004L8S is a 750 V, 4.3mΩ high-performance Gen 4 normally-on SiC JFET transistor. This device exhibits ultra-low on resistance ( $R_{DS(on)}$ ) in a compact TOLL package, making it an ideal fit to address the challenging thermal and space constraints of solid-state circuit breakers and relay applications. Additionally, the JFET is a robust device technology capable of the high-energy switching required in circuit protection applications.

### Features

- ◆ Single digit on-resistance in a TOLL SMD package
- ◆ Operating temperature: 175°C (max)
- ◆ High pulse current capability
- ◆ Excellent device robustness
- ◆ Silver-sintered die attach for excellent thermal resistance
- ◆ Short circuit rated
- ◆ RoHS compliant

### Typical applications

- ◆ Solid State / Semiconductor Circuit Breaker
- ◆ Solid State / Semiconductor Relay
- ◆ Battery Disconnects
- ◆ Surge Protection
- ◆ Inrush Current Control

## Maximum Ratings

| Parameter                             | Symbol         | Test Conditions                             | Value      | Units      |
|---------------------------------------|----------------|---|------------|------------|
| Drain-source voltage                  | $V_{DS}$       |   | 750        | V          |
| Gate-source voltage                   | $V_{GS}$       | DC  | -30 to +3  | V          |
|                                       |                | AC <sup>1</sup>                             | -30 to +30 | V          |
| Continuous drain current <sup>2</sup> | $I_D$          | $T_C < 145^\circ C$                         | 120        | A          |
| Pulsed drain current <sup>3</sup>     | $I_{DM}$       | $T_C = 25^\circ C$                          | 588        | A          |
| Short circuit withstand time          | $t_{SC}$       | $V_{DS} = 400V, T_{J(START)} = 175^\circ C$ | 5          | $\mu s$    |
| Power dissipation                     | $P_{tot}$      | $T_C = 25^\circ C$                          | 1153       | W          |
| Maximum junction temperature          | $T_{J,max}$    |   | 175        | $^\circ C$ |
| Operating and storage temperature     | $T_J, T_{STG}$ |   | -55 to 175 | $^\circ C$ |
| Reflow soldering temperature          | $T_{solder}$   | reflow MSL 1                                | 260        | $^\circ C$ |

1. +30V AC rating applies for turn-on pulses <200ns applied with external  $R_G > 1\Omega$ .

2. Limited by bondwires

3. Pulse width  $t_p$  limited by  $T_{J,max}$

## Thermal Characteristics

| Parameter                            | Symbol          | Test Conditions | Value |      |      | Units        |
|--------------------------------------|-----------------|-----------------|-------|------|------|--------------|
|                                      |                 |                 | Min   | Typ  | Max  |              |
| Thermal resistance, junction-to-case | $R_{\theta JC}$ |                 |       | 0.10 | 0.13 | $^\circ C/W$ |

## Electrical Characteristics ( $T_J = +25^\circ\text{C}$ unless otherwise specified)

### Typical Performance - Static

| Parameter                      | Symbol                     | Test Conditions  | Value |      |      | Units            |
|--------------------------------|----------------------------|--|-------|------|------|------------------|
|                                |                            |  | Min   | Typ  | Max  |                  |
