

RASRSF CONNECTOR

Right Angle RAST5 connectors

• Right angle design

Right angle design allows ease of harness routing in tight places. Available in one circuit to twelve circuits.

• Easy insertion, positive locking

The combination of terminal and housing allows easy mating to a male tab. Un-mating is equally easy. Simply hold the housing and pull. The contact locking spring is depressed by the taper inside the housing. The locking mechanism prevents accidental disengagement of the contact from the mating tab.

• Ultra low insertion force

The contact is designed as a low insertion force with a large contact area to give stable performance, even when high current is applied.

• Contact back out preventive design

Innovative contact and housing design eliminates contact back out caused due to damaged locking lances during termination and harness assembly.

• Keying options

Selective removal of built-in keys and blocking housing cavities, allows for an infinite number of keying possibilities. The cover can be molded in various colors.

Specifications

- Current rating: 15A AC, DC max.(AWG #14)
(20A Contact under development)
- Voltage rating: 250V AC, DC max.
- Temperature range: -40°C to +105°C
(including temperature rise in applying electrical current)
- Contact resistance: Initial value/ 3m Ω max.
After environmental testing/ 6m Ω max.
- Insulation resistance: 1,000M Ω min.
- Withstanding voltage: 2,000V AC/minute
- Applicable wire: AWG #18 to #14
