Splicing Rig Metal Blade Holder Tool

A two-piece design for consistent, reliable splices.

The 3M™ 710 Splicing Rig Metal Blade Holder Tool is part of a two-piece cutter blade-and-holder design that enables consistent, high-quality splices in copper conductor cable, thus helping to ensure highly reliable connections. The blade and metal blade holder are components of the 3M™ 710 Splicing Rig, a rugged, low-maintenance tool that makes it fast and easy to create a good splice.

A new design for more consistent cut-offs.

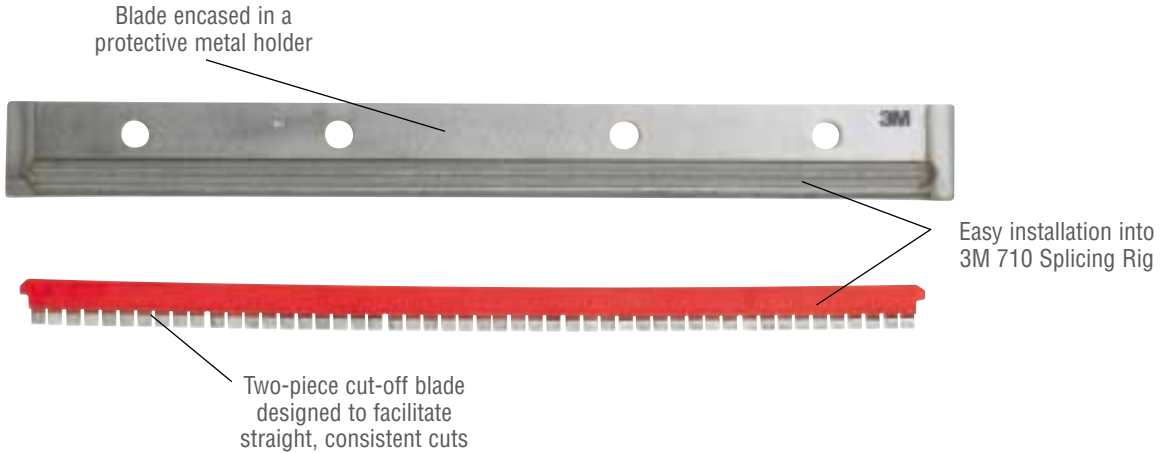

The 3M 710 Splicing Rig Metal Blade Holder Tool encases the rig's cut-off blade in a metal holder, which helps keep the blade rigidly positioned when a cut is made. By preventing the blade from flexing, the rigid steel blade holder helps to achieve a more consistent cut-off location centered on the cut-off pads—a well-recognized indicator of a high-quality splice.

The metal blade holder tool is built to last. Blade life will vary depending on application wire gauge. Replacement blades are available in case of loss or damage and are easily installed in the field.

An integral part of the 3M™ 710 Splicing System.

The 3M™ 710 Splicing Rig and the 3M™ 710 Splicing Rig Metal Blade Holder Tool are designed to be used with the splicing modules in the 3M 710 Splicing System. Proven

reliable over 25 years in the field, the 710 splicing modules are used to create high-quality splices in copper conductor cable. The full system includes splice modules (including half-tap, straight and bridge connectors), tools, supplies and replacement parts.

3M 710 Splicing Rig and Metal Blade Holder Tool Ordering Information

Description	Product Number
3M710-AP105-25-SH 25-pair 3M 710 Metal Blade Holder Tool* (Blade not included)	80-6111-4910-7
3M710-AP105-25-S 3M 710 25-pair Cutter Blade (Five blades per package)	80-6111-4704-4
3M710-UT25A 3M 710 25-pair Splicing Rig	80-6111-4868-7
3M710-UTK25A 3M 710 25-pair Splicing Rig Kit (Complete with Maintenance Kit and Carrying Case)	80-6111-4869-5
3M710 UTK25C 3M 710 25-pair Splicing Rig Kit (Complete / International)	80-6111-4870-3

*The 3M 710 Metal Blade Holder Tool is intended to be ordered separately from the 3M 710 Cutter Blade, Splicing Rig and Splicing Rig Kits. Contact your 3M representative for more information.
